Dear David,

Thank you for your very effective help in recovering not only the substantial debt that was owed to us, but also all the court fees and other costs that I had expended on the Small Claims Court procedure, to no avail!

Having found your company on the Internet, and then spoken to you, I was impressed by your no nonsense and pragmatic approach. I will certainly be using your services again when the occasion demands, and will recommend your company to my associates.

Yours sincerely,

Geof Newton
